Dear [Redacted]

STAT

This responds to your letter of 26 November 1985 which requests our comments on a proposed amendment to H.R. 3378; the proposed amendment would make clear that authorized intelligence activities are not affected by the legislation.

As we have previously discussed, this Agency does not object to the amendment attached to your letter of 26 November. There is some concern that this amendment may be viewed as more expansive than what intelligence agencies actually need to conduct authorized activities. If such a concern were to arise, the National Security Agency would be willing to consider a more narrowly drawn amendment.

Sincerely,

STAT
